Judge N. E. Patterson proudly displayed a fine yellow bass Sunday. There is a question of local people about that fish's mouth.

The talk of the country—Hayman's slaughter sale of new dry goods, clothing and shoes.

That's all right about sweet potato plants. If you will just look at Brother A. Goodpastor's you would not have any others on the "Xmas tree."

I made a small deal out of the market, but the result was a small loss. I regretted it.

Henry Schrock, W. E. Street bought of Henry Hootch, a second horse for between \$80 and \$100, and of Dee and Leslie Street a 2-year-old stallion by J. S. Brown for \$300.

Devoted the Crown.—The dedication of the United Methodist Church divided the crowd with the White Oak Church Sunday and the attendance of the latter was not up to the usual size. Rachel had large crowd.

I have plenty of cheap buggies and good ones also, such as Columbia Buggy Co., Brockway, Laporte, Blount, and Rattomann & Luth make, both in steel and rubber tires. Come and save money.

Bring your old buggies to T. S. SANCOR and trade for a new one, or if you want a second-hand buggy at any price from \$5 to \$30, come and see them; we have plenty of them nicely painted and repaired until they will give satisfaction. We keep a man painting every day.

I have 14 buggies in J. B. Goodpastor's tobacco barn and in order to make room in my buggy warehouse, which holds 40 buggies, I will continue to sell at a reduction for cash or credit. Take your choice about terms, as it only costs you the interest to buy on credit.

Big Meteorite Found.—One by one are being found the fragments of the great meteor of Saturday night, Nov. 13th, 1902, which created such a sensation over this county and other States. The meteor was last seen over the southeastern part of this county, from which direction after its disappearance came the sound of a heavy explosion and a short time later a continuous rumbling like the noise of a heavy railroad train.

Bluff Station saw some of the fragments fall and next morning found a piece weighing twelve and three-quarter pounds, which he sold to W. H. Daugherty, of this town. Mr. Daugherty sold it to Prof. Henry A. Ward, of Rochester, N. Y., and Chicago, Ill. Prof. Ward is said to have disposed of it to the National Museum at Washington City, where it is on exhibition under the label of "Black Prairie No. 1." Dick McCarty later found a fragment, which Mr. Daugherty bought and resold to the State A. & M. College at Lexington.

The fore part of last week J. H. High Prager while squirrel-hunting near Cartington's Rock, on upper Salt Lick Creek, noticed a tree with limbs broken and bark scraped off as by the fall of some heavy body. At the foot of the tree he saw a depression in the ground which he promptly examined and found, almost covered with dirt, a large blackened stone. He went back next day with his family and sled and dug the stone out, loaded it on the sled and brought it home.

On Thursday of last week Squire Thomas J. Prager brought to town a piece clipped off of the big stone. The outer surface had the same peculiarities as that of the Bluff Station meteorite. The interior was of a grayish color and specked with shiny metallic particles. Mr. Prager judged the big stone to be an average of eighteen inches in thickness and to weigh five hundred pounds. He said he did not near lift it and it was too heavy for him to move.

Having snatched the meteorite and the Rock a couple of times each we took leave of our host and hostess, Squire and Mrs. Prager, who had been especially kind to us. We took a short cut back to the "pike" and almost missed it. The C. & O. people are musing it in not running excursions to it as man's latest and best imitation of nature's contrivance grading into a flat. Corduroy road would be smooth as silk velvet compared to it.

We managed to reach home, but the horse has been in the hospital ever since and the men blaspheming the turnpike, while the pieces of the camera failed to show a picture of the meteorite after a few button having the rest of camera; any self-respecting would have done the right thing at this one required the man to be dumped into the ditch when the heaving was in whereas, etc., etc.

Baseball Game.—On Sunday the Owensville team came down and defeated a nine of Owensville players 21 to 18. Our boys were unorganized and out of practice, therefore their defeat was accomplished, despite the fact that E. H. Broder and E. C. Brown did some fancy hitting.
